---

We have a 100% Nigerian workforce with strong emphasis on training and personal development. Our teams are carefully selected with strong emphasis on ability to deliver against Service Level agreements (SLA) already concluded with clients. Each SLA is further individualised into the employee deliverables to ensure individual ownership of the project.

The Company provides services to a select number of national clients and three international clients, whose services range from simple Oil and Gas services through to multi-million dollar contracts involving specific project skills. International links are maintained through our telecommunications systems based around a 24 hour round-the-clock dedicated Vsat link and dial-up internet service as back-up, office, Home and mobile blackberry telephony for our field operatives.

The Company has the resources and expertise to fulfil the requirements for the provision of immigration services for complex back-to-back projects requiring speedy mobilization and regularization of immigration status of expatriate personnel.
